

Adam Mosebach

Full Stack Web Developer
New York, NY

Professional Summary

I am a developer with a passion for thinking outside the box. I believe there are many solutions to achieving a goal and love finding the best one. I am a fun-loving but focused person who finds fulfillment in completing a task. Efficiency and user experience fuel my logical approach to crafting the ideal program.

Related Experience

Software Engineering Immersive Fellow

General Assembly | New York | 2020-Present

- Learned many front-end and back-end languages and how they are implemented in the real world
- Worked in teams to create a collaborative atmosphere, making the project better than any one person could have done
- Created four complete projects using the skills we learned in class

Morgan Stanley

Programmer | New York | 2006-2007

- Wrote automated processes for incoming trade records to be ingested and analyzed
- Provided error reporting for both the client and Morgan Stanley
- Provided customer service to large firms when further action was needed on client side
- Built a series of training videos to help incoming colleagues perform and onboard efficiently

Other Work

AJ Karaoke

Founder, Owner, Operator | 2014-Present

- Combined many machines to create a full setup for audio and visual technology
- Used Virtual DJ program to implement songs and project lyrics to screen
- Consistently updated the online catalog using a database and elementary php

Professional Actor

Various Locations | 2007-2019

- Actor (and sometimes assistant stage manager) in various theaters across America, including a national tour and an international tour
