

# Adam Mosebach

Full Stack Web Developer  
New York, NY

## Professional Summary

I am a developer with a passion for thinking outside the box. I believe there are many solutions to achieving a goal and love finding the best one. I am a fun-loving but focused person who finds fulfillment in completing a task. Efficiency and user experience fuel my logical approach to crafting the ideal product.

## Related Experience

### Software Engineering Immersive Fellow

General Assembly | New York | 2020

- Built and deployed projects with a React front-end and a MongoDB or Rails backend
- Worked on solo projects as well as in teams, dominated by a creative and collaborative atmosphere
